FROM John Roberts

DATE 4th July 1994 **PAGES** 10

The following is up to date information on the activities and membership of SCOTH. Sorry it had taken so long to pull together. The list of members which I sent to you previously was that of the Technical Working Group which will do much of the work for the Committee. Once again I apologise for the confusion. This list is also included for completeness.

I have put together a note on the Committee and also obtained some very useful information from Rothmans who have done some research on its membership.

I will report once I hear about the Committee's meeting tomorrow and again after the industry experts have met on Friday.

With best wishes,

2023000082
